

FBI Internet Safety Program and Teacher Appreciation Week

Big Hollow students have been participating in the FBI Safe Online Internet Surfing Challenge (FBI-SOS) throughout the year. The program was designed by the FBI and is used as a way to teach students about internet citizenship and safety. The FBI-SOS program is comprised of a pre-quiz, online scavenger hunt, and a post quiz. The results of the post quiz are posted online and ranked among other participating schools throughout the United States. Big Hollow students have been doing an outstanding job and are one of the top in the nation. For the month of April, one of Big Hollow's sixth grade students took 1st place out of all participating schools participating in the FBI-SOS program. The entire sixth grade took 2nd place in the nation and 1st place in Illinois. To view all of the stats, learn more about the program, and follow Big Hollow's progress visit in May, http://www.fbi-sos.org/index.cfm?Page=School_Results.

Don't forget that great programs like FBI-SOS would not be successful without our great teachers. With that being said, May 2-6 is Teacher Appreciation Week. Each year the PTO takes time to let the teachers of Big Hollow know that their dedication and efforts do not go unnoticed. Throughout the week teachers the PTO will be showing the teachers they care through thoughtful gestures such as breakfast to start their day. This week, take a moment to thank the teachers at Big Hollow for amazing things they do in the lives of their students!
